1. Any changes in the examination schedule are to be cleared by the instructor with the Academic Dean IN WRITING.
2. Examinations following the block system will meet in the room in which the lectures are scheduled.
3. Examinations that are normally to be arranged will continue to be arranged. If rooms to be used are those usually assigned by the Office of the Registrar, room assignments should be cleared with the Registrar.
4. If a class meets fewer hours than the hours in the block, the examinations will be at the time scheduled.
5. If a class has a lecture and lab or studio, the time of the lecture block is to be considered when determining the examination time.
6. If a class, because of its nature (such as Art and Nursing) crosses blocks, the instructor in consultation with the students and the Registrar should schedule its examination time. The examination shall be given during the examination period.

To determine the date and time of your final exam match the time your class meets with the time in the individual blocks. If the exact time is not listed in a box, match the time frame. (Example: If your class is Monday from 9:00 to 11:30 your exam would fall in the B block). Once you determine what block your class is, follow the table up to see the date of the exam (Tuesday, December 15 in the example given above). The time of the exam is directly above the exam block in bold type (1:00 PM to 3:00 PM in the example).
