The follow prerequisites should be completed within 10 years of matriculation into the program (Fall 2013 to current).

- C+ or better
  - One course in anatomy with Lab
  - One course in physiology with Lab
    - Or two courses sequence in anatomy and physiology with lab
  - Two courses in biological sciences
  - One course in psychology/sociology

Notes: Exceptions include AP classes with a score of 3 or better; CR grades received during the pandemic; Pass/Fail grades at institutions such as WGU, La Roche, etc. We will not accept any C- grades. For example, a C- in the lecture and an A in the lab. We will use the grading scale from the Registrar’s office, attached, that states a C+ is equivalent to a 2.25. For example, A&P I class with the 3-credit course separated from the 1-credit lab, this would mean at least a C in the 3 credit course and a B in the lab, which equals a C+.

- C or better
  - Two courses in general chemistry with Lab
  - Two courses in general physics with Lab
  - One course in statistics
